

Saarthi AI

India's Personalized Digital
Companion

Empowering Students, Homemakers,
Senior Citizens, and Small Business
Owners through AI, Digital Literacy,
and Scam Protection.

Problem Statement

- • Homemakers struggle to access schemes and digital services
- • Small businesses rely on manual tracking systems
- • Senior citizens face scams and technology barriers
- • Students miss opportunities and personalized guidance

Why Saarthi?

- Existing solutions are fragmented. Saarthi provides ONE AI companion that adapts to different user personas and needs.

Solution Overview

- One Platform → Four Personas
- Amma Saarthi | Sharmaji Saarthi | Senior Saarthi | Student Saarthi

Feature Matrix

- Amma: Govt Schemes, Recipe AI, Grocery AI, Reminder AI, Community Support
- Sharmaji: Business Insights, Customer Log, Expense Tracking, Employee Tracking, Family Wellness
- Senior: SOS, Medical Reminder, Memory Management, Digital Guide, Benefits Assistant
- Student: Productivity Coach, Notes Summarizer, Scholarship Finder, Student Finance, Career Navigator

AI & Innovation Layer

- Personalized Recommendations
- Multilingual Support
- Voice Assistance
- Smart Reminders
- Notes Summarization
- Opportunity Matching
- Digital Literacy + Scam Protection Engine

System Architecture

- User → Persona Selection → AI Agent Layer → RAG + Knowledge Base → Database + Notification Engine → Voice & Mobile Interface

Technology Stack

- Frontend: Next.js, TailwindCSS
- Backend: Node.js, Express.js
- Database: PostgreSQL
- AI: OpenAI, RAG, Speech-to-Text
- Deployment: Vercel, Railway

User Journey

- Amma Saarthi:
- Open App → Select Mode → Ask in Local Language → AI Finds Scheme → Eligibility Guidance → Reminder

Expected Impact

- 10,000+ Users
- 5,000 Students Supported
- 2,000 Scheme Recommendations
- 500 SMEs Assisted
- 1,000 Senior Citizens Benefited

Roadmap

- Phase 1: MVP
- Phase 2: AI Personalization
- Phase 3: Pilot Testing
- Phase 4: State-wide Expansion

Closing

- One Platform. Four Personas. Infinite Possibilities.
- Mission: Make digital services and opportunities accessible to every Indian citizen through AI.
